MONSTER

MONSTER WHO WE ARE?

We have been serving our customers with our experience and expertise since 1998.

Our journey began with the art of fine engraving, bringing an aesthetic dimension to shotguns. Today, we proudly continue this tradition of craftsmanship through the production of premium over-and-under, semi-automatic, and pump-action shotguns.

LIMITLESS POTENTIAL WITH MONSTER ARMS

With our advanced technological infrastructure and strong R&D capabilities, we create high-value products for hunting enthusiasts. We are committed to delivering both aesthetics and quality to our valued customers.

A person wearing tactical gear and gloves is holding a semi-automatic rifle. The background is a blurred outdoor setting. The text 'SEMI AUTO' is overlaid in large, white, bold letters, with a horizontal line above it. The number '01' is visible in the bottom left corner.

MA-701 FDE

Product Model: MA-700 SERIES	System: Gas Operated Semi-Automatic	Caliber: 12 Gauge	Chamber: 2 3/4" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 14"
Overall Length: 36,22"	Coating: Cerakote & Anodized Finish	Capacity: 4+1	Receiver: 7075 Aluminum	Choke Options: Mobile Choke Set / Slug	Weight: 6 Pounds Average

The semi-automatic Monster MA-701 stands out with its compact tactical design. Its orthopedic forend ensures firm control during rapid fire, while the integrated muzzle brake reduces muzzle rise and distraction, helping you maintain consistent focus.

With its ergonomic pistol grip, adjustable sighting system with a receiver-mounted rail, and two stock options — a fixed stock with adjustable cheek piece or a synthetic folding stock — the Monster MA-701 delivers a stable and customizable shooting experience tailored to different operational needs.

MA-501 DW

Product Model: MA-500 Series	System: Gas Operated Semi-Automatic	Caliber: 12 Gauge	Chamber: 2 3/4" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 28"
Overall Length: 44,88"	Capacity: 5+1	Receiver: 7075 Aluminum	Weight: 6,6 Pounds	Choke Options: Mobile Choke Set	

The Monster MA-500 Series semi-automatic shotguns are designed to meet the needs of every hunter and shooter with both premium walnut and rugged synthetic stock options.

Whether you prefer the natural elegance and warm feel of wood or the enhanced durability and solid feel delivered by synthetic materials, they deliver consistent performance in any environment.

Fast, reliable, and solidly built, they operate flawlessly in all field conditions. Crafted to withstand every season with dependable durability, Monster MA-500 Series are versatile shotguns that keep you confident and prepared for every hunt.

MA-801 T

Product Model: MA-801 T	System: Gas Operated Semi-Automatic	Caliber: 12 Gauge	Chamber: 2 3/4" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 18.5"
Buttstock: Synthetic - Fixed	Coating: Cerakote & Anodized Finish	Capacity: 5+1	Receiver: 7075 Aluminum	Choke Options: Mobile Choke Set / Slug	Weight: 6,6 Pounds
Overall Length: 38.98"					

The semi-automatic Monster MA-801T delivers a compact tactical profile built around its 18.5" barrel and uniquely engineered design. Its orthopedic forend ensures a firm, consistent grip, giving shooters exceptional control even during rapid fire.

Complementing this, the fixed synthetic stock enhances overall stability and durability, providing a solid and reliable shooting platform. The Monster MA-801T is designed for consistent handling and balanced control. Its ergonomic structure not only improves performance but also ensures comfort during extended use.

MA-201 S

Product Model: MA-201 S	System: Gas Operated Semi-Automatic	Caliber: 12 Gauge	Chamber: 2 ¾" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 20"
Buttstock: Synthetic - Fixed	Coating: Cerakote & Anodized Finish	Capacity: 4+1	Receiver: 7075 Aluminum	Choke Options: Mobile Choke Set	Weight: 6,3 Pounds
Overall Length: 41"					

Monster MA-201 S semi-automatic shotgun is designed to meet the essential needs of hunters and shooters with reliable and consistent performance.

Its well-shaped synthetic stock offers a comfortable and stable shooting position, while the ergonomic forend ensures secure and natural handling during use. Balanced and easy to control, it delivers dependable operation for everyday field applications, making it a practical and trustworthy choice.

MA-601 T

Product Model: MA-601 T	System: Gas Operated Semi-Automatic	Caliber: 12 Gauge	Chamber: 2 3/4" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 18.5"
Buttstock: Synthetic - Folding	Coating: Cerakote & Anodized Finish	Capacity: 6+1	Receiver: 7075 Aluminum	Choke Options: Mobile Choke Set	Weight: 7,2 Pounds
Overall Length: 38,6"					

The Monster MA-601T shotgun is engineered to meet Monster’s standards of reliability and functional versatility. Featuring a folding stock, it offers compact handling and enhanced maneuverability across diverse operational environments.

The ergonomic forend ensures secure grip and balanced control, while the integrated Picatinny rail enables effortless mounting of optics and tactical accessories. Designed for consistent performance, the Monster MA-601T delivers dependable capability in a wide range of shooting environments.

MA-521 DW

Product Model: MA-521 DW	System: Gas Operated Semi-Automatic	Caliber: 20 Gauge	Chamber: 2 ¾" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 28"
Buttstock: Turkish Walnut	Coating: Cerakote & Anodized Finish	Capacity: 5+1	Receiver: 7075 Aluminum	Choke Options: Mobile Choke Set	Weight: 6,6 Pounds
Overall Length: 44,88"					

The Monster MA-521 DW semi-automatic shotgun is crafted for hunters and shooters who appreciate classic elegance and reliable performance. Featuring a premium walnut stock and forend, it offers natural balance, refined aesthetics, and comfortable handling.

Fast and dependable, it cycles smoothly and performs consistently in demanding field conditions. Built for durability throughout every season, the MA-521 DW keeps you confident and ready for every hunt.

MA-301 W

MA-302 W

Product Model: MA-300 Series	System: Gas Operated Semi-Automatic	Caliber: .410	Chamber: 2 ¾" & 3"	Choke Options: Mobile Choke Set	Receiver: 7075 Aluminum
Buttstock: Turkish Walnut	Coating: Cerakote & Anodized Finish	Capacity: 5+1			

The MA-300 Series semi-automatic shotguns embody Monster’s focus on balance, precision, and shooting comfort. Featuring finely crafted wooden stocks and forends, the series delivers natural ergonomics and stable handling.

The semi-automatic operating system provides smooth and consistent cycling, while the lightweight .410 platform ensures reduced recoil and effortless control. Designed for reliability and refined performance, the MA-300 Series is an ideal choice for shooters seeking elegance and confidence in the field.

MA-701 T

Product Model: MA-701 T	System: Gas Operated Semi-Automatic	Caliber: 12 Gauge	Chamber: 2 ¾" & 3"	Barrel: 4140 Steel (Solid / Drilled Material Processing)	Barrel Length: 24"
Buttstock: Synthetic - Folding	Coating: Cerakote & Anodized Finish	Capacity: 7+1	Receiver: 7075 Aluminum	Choke Options: Mobile Choke Set	Weight: 7,4 Pounds
Overall Length: 43,9"					

Monster MA-701T semi-automatic shotgun is engineered in line with Monster’s commitment to reliability and modern functionality. Featuring a folding stock, it offers enhanced ergonomics, compact storage, and adaptable handling across varied operational requirements.

The ergonomic forend ensures secure grip and balanced control, while the integrated Picatinny rail allows seamless mounting of optics and tactical accessories. Designed for dependable performance, the Monster MA-701T delivers confident capability in demanding environments.
